

It is Rubix UK Ltd policy to provide a range of products and services, which meet the requirements of customers, supply partners and the quality standard BS EN ISO9001:2015.

Through the involvement of all levels from Top Management to staff and all other interested parties Rubix UK Ltd will aim to continually improve the level of customer satisfaction.

Top Management will ensure that the Quality Policy and objectives are communicated, understood, and implemented throughout all levels of the company and that everyone understands the importance of their contribution to the continual improvement of the system and the business.

RUBIX UK Ltd undertakes to supply only safety equipment and/or related services that fully comply with the standards and regulations and claims made relating to those products and/or related services. Where appropriate, Rubix will maintain up to date technical files and associated documentation to ensure that regulatory compliance information can be supplied upon request.

Where products are sourced from external organisations which hold technical files relating to the products being offered, Rubix will request confirmation that these files are current, complete, contain appropriate conformity assessment information and, where relevant, regulatory compliance certificates and will take all necessary steps to confirm the validity of the compliance documentation held by that external supplier in respect of the products being sourced.

Where services are provided related to safety equipment sourced from external organisations, Rubix will maintain approval from the manufacturer that the services provided are assessed and approved by the external organisation.

The success of the Policy will be measured through the analysis of the business objectives, which will be reviewed annually at Management Review meetings.
